

Vision of Hope

Vision of Hope is a Leadership Tomorrow project, created to collect used eyeglasses for Mountain Hope Good Shepherd Clinic to use for their new eye care clinic that will open later this year. The Leadership Tomorrow team will work with the local Lions Club to have the glasses typed for their prescription, and donated to the Mountain Hope clinic to distribute to their patients who need them.

Area businesses and organizations have been generous to assist the Leadership group in their efforts by allowing collection boxes to be placed in their establishment for eyeglass donations. Some businesses may not have a box in the public area of their business, but instead have it placed in an employee lounge or private area. However, they will happily accept any donations brought to their location.
